We only process personal data in our company in accordance with statutory provisions. This is generally done when

- consent to the processing of personal data has been given (Art. 6(1)(a) GDPR),
- personal data must be processed in order to fulfill a contract or initiate a contract (Art. 6(1)(b) GDPR),
- the processing of personal data is necessary to comply with a legal obligation (Art. 6(1)(c) GDPR) or

Potential recipients in the event of data transfer

The potential recipients of transferred personal data are

If, in individual cases, we transfer your data to a third country or to an international organization, we will provide you with the information required for this situation.

Standard data erasure periods

Personal data will be erased in accordance with the respective applicable legal or contractual regulations on data erasure, taking into account legal or contractual retention obligations. Such legal obligations arise from the German Commercial Code (HGB) and the German Tax Code (AO), among others. The periods specified there for storage or documentation are up to ten years beyond the end of the business relationship or the pre-contractual legal relationship.

Furthermore, other statutory provisions may require a longer retention period, such as the preservation of evidence within the scope of statutory prescription periods. The regular limitation period is three years. However, in certain cases, limitation periods of up to 30 years or, in individual cases, even longer, may apply. Personal data not subject to a legal or contractual retention or deletion obligation shall be erased after it has become dispensable for the fulfillment of the respective purpose.

Your rights regarding data protection (Art. 12 et seq. GDPR)

Data subjects are entitled to various rights regarding data protection. These rights are explained below. The above contact details can be used to exercise these rights.

Right to information (Art. 15), rectification (Art. 16), restriction of processing (Art. 18) and erasure (Art. 17)

Right to object (Article 21 GDPR)

Every data subject has the right to object to the processing of their data where the data processing is based on Art. 6(1)(f) GDPR or for direct marketing purposes. In the event of an objection to the processing of your personal data, we will review your objection on a case-by-case basis. Where data protection law requires us to delete your personal data due to your objection, we will delete your data taking into account statutory retention obligations. An objection shall not affect the legitimacy of the processing carried out until the objection was made.

Data disclosure obligation

Our data protection officer will inform you on a case-by-case basis whether the provision of personal data is statutorily or contractually required or whether it is necessary for the conclusion of a contract, whether the data subject is obliged to provide the personal data and what the possible consequences of the failure to provide it would be.

Right to lodge a complaint with a supervisory authority

Data subjects shall have a right of appeal to the competent supervisory authority where they believe that one of their rights has been violated. The responsible supervisory authority for data protection issues is the data protection officer of the federal state in which our company is based. In principle, however, the data subject may also contact the supervisory authority of their place of residence or of the place of the alleged infringement. A list of the data protection officers and their contact details can be found at the following link: https://www.bfdi.bund.de/DE/Infothek/Anschriften_Links/anschriften_links-node.html.

Withdrawal of your consent for data processing

Some data processing operations are only possible with your express consent. You can withdraw already given consent.
